Last updated: May 13, 2026 [public version]

Personal details

- **Date and place of birth**: 20 March 1964, New Delhi, India.
- **Nationality**: German citizen.

Professional Accreditation

- **Chartered Statistician**

Education

- **University of Sheffield**, Sheffield, UK.
  MSc in Statistics, Sept 2012-November 2015, School of Mathematics and Statistics.
  MSc Dissertation: *A Meta-analysis of relative clause processing in Mandarin Chinese using Bias Modelling.*
  Advisor: Jeremy Oakley.
- **University of Sheffield**, Sheffield, UK.
  Graduate Certificate in Statistics, Sept 2011-June 2012, School of Mathematics and Statistics.
- **Ohio State University**, Columbus, OH, USA.
  Ph.D. in Linguistics, April 1997-June 2002.
  Dissertation: *Working memory in Sentence Comprehension: Processing Hindi Center Embeddings*
  Advisors: Shari Speer, Richard L. Lewis. Dissertation committee members: Chris Brew, Keith Johnson, John Josephson.
- **Ohio State University**, USA.
  M.S. in Computer and Information Science, August 2000-March 2002.
  Master's thesis: *An Abductive Inference Based Model of Human Sentence Parsing*

Advisors: John Josephson, Richard L. Lewis. Thesis committee member: B. Chandrasekaran.

- ◇ **Osaka University**, Japan.
Ph.D. student, April 1996-March 1997, Faculty of Language and Culture. Advisor: Takao Gunji.
- ◇ **Osaka University**, Japan.
Research student, Faculty of Language and Culture, 1995-1996.
- ◇ **Jawaharlal Nehru University**, New Delhi, India.
M.A. Linguistics, 1992-1994.
- ◇ **Osaka University of Foreign Studies**, Japan.
Diploma in Advanced Japanese, 1989-1990.
- ◇ **Alliance Française**, New Delhi, India.
Diplôme de langue française, 1986-1989.
- ◇ **Jawaharlal Nehru University**, New Delhi, India.
B.A. Japanese (Honours), 1986-1989.
- ◇ **Nov. 1984-Sept. 1986: Studies interrupted due to kidney failure followed by transplant, which failed in November 2011; since November 2011, I have been on hemodialysis.**
- ◇ **Delhi University**, India.
First year B.A. Economics (Honours), 1983-1984. Studies ended due to illness.
- ◇ **St. Columba's School**, India.
Indian School Certificate (Mathematics, Physics, Chemistry, Biology, English), 1971-1983.

WORK EXPERIENCE

- ◇ **Full professor (W2, 1st October 2008 onwards**: Chair of Psycholinguistics & Neurolinguistics: Language Processing, Department of Linguistics, University of Potsdam, Germany. (Beamter auf Lebenszeit; this is a lifetime appointment as a civil servant in the state of Brandenburg).
- ◇ **Assistant professor (Juniorprofessor)**: Empirical Methods in Syntax. Department of Linguistics, University of Potsdam, Germany (August 2004-July 2010; resigned September 2008). This was a non-tenure track, fixed term (6 years maximum) position. The mid-term evaluation (considered equivalent to a Habilitation) was carried out in March 2007 and was successful.
- ◇ **Postdoctoral researcher (Wiss. Mitarbeiter, BAT IIa)**: Computational Linguistics, Saarland University, Germany (June 2002-July 2004).
- ◇ **Research assistant**: Statistical data analysis for Shari Speer, Ohio State University, USA (Spring 2002).
- ◇ **Verbmobil machine translation project**: tree annotation, perl scripting, Ohio State University, USA (1997-2000).
- ◇ **Teaching assistant**: Osaka University, Japan (1996-1997).
- ◇ **Freelance patent translator**: Japanese to English translation for clients in Japan and the UK (1995-present). Specialization: computer hardware and software patents, mechanical, electrical, and electronics engineering.

- **In-house patent translator**: Japanese to English translation, Osaka, Japan (October 1990-March 1992).
- **Freelance interpreter and translator**: Japanese to English/Hindi translation for clients in Delhi (1985-1986, 1992-1994). Specialization: mechanical, electrical, and electronics engineering.

Skills

- Programming (various languages)
- LaTeX, literate programming (knitr, Rmarkdown)
- Unix, Linux, MacOS
- Native English and Hindi-Urdu speaker, good written and spoken Japanese (Japanese Proficiency Test Level I, passed in 1990); French (Diplôme de Langue Française, 1989, with grade *assez bien*); and German (Oberstufe, C2.1 level of Goethe Institut).

Awards, honors, job offers and scholarships

- **Best teacher award**: Charité, SFB 1340 Matrix in Vision, 18 January, 2019.
- **Visiting Professor, University of Tokyo, Japan (Oct-Dec 2015)**
- **International Chair, Laboratoire d'excellence "Empirical Foundations of Linguistics: data, methods, models", France, October 2014**
- **Full Professorship in Cognitive Modeling (W3)**, offered by the University of Tübingen, Department of Computer Science (declined, 2011)
- **Full Professorship (W2)**, offered by the University of Potsdam (accepted, 2008)
- **Full Professorship (W2)**, offered by Ruhr-Universität Bochum (declined, 2008)
- **Tenure-track assistant professorship**, offered by Northwestern University (declined, 2007)
- **Third position in short list for Full Professorship in Theoretical Computational Linguistics (W3), Tübingen**
- **Dissertation selected for publication in Outstanding Dissertations series, Garland Publishers, Routledge** (2003)
- **Graduate research assistant**, Ohio State University (Winter and Spring 2002)
- **Adjacent Technology fellowship**, Ohio State University (Fall 2001)
- **GRA, Center for Cognitive Science**, Ohio State University (Summer 2001)
- **Internal grant**, Computer and Information Science, Ohio State University (2000-2001)
- **Eberhard Karls Universität Tübingen Study Grant**, Ohio State University (1997-2000)
- **Japanese government (Monbusho) research scholarship** (1995-1997)
- **Nehru Centenary Fellowship for study in the UK** (declined) (1995-1998)
- **Junior Research Fellowship, Government of India** (declined) (1995)
- **Japanese government (Monbusho) scholarship** (1989-1990)

CURRENT RESEARCH FUNDING

- ◇ Member of EU COST project: CA21131 Enabling multilingual eye-tracking data collection for human and machine language processing research (MultiplEYE), led by Prof. Dr. Lena Jäger: https://www.cost.eu/actions/CA21131/
- ◇ DFG project (part of the Schwerpunktprogramm META-REP): Ein gründlicher Bayes'scher Workflow zur Untersuchung robuster individueller Unterschiede in der Kognitionswissenschaft, led by Prof. Dr. Julia Haaf
- ◇ Two projects in the SFB 1287, Limits of Variability in Language: Cognitive, Grammatical, and Social Aspects (July 2021- December 2025)
- ◇ DFG project AGREE, phase 2 , led by Prof. Dr. Sol Lago (funded 2022, for three years)
- ◇ DFG project AGREE (funded 2016, for three years, initially to Prof. Dr. Sol Lago, transferred to me in April 2019), extended without further funding to Dec 2020

PREVIOUS RESEARCH FUNDING

- ◇ Three projects in the SFB 1287, Limits of Variability in Language: Cognitive, Grammatical, and Social Aspects (July 2017- June 2021)
- ◇ Opus magnum Award, Volkswagenstiftung (Oct 2016-Sept 2018)
- ◇ DFG project INHIBIT (funded Nov 2016, for three years, extended without further funding to Dec 2020.)
- ◇ **Project title**: A1 Dynamic modeling of eye-movement control in reading. Funded by the DFG, 2011-2013 (three years). Co-PIs: Ralf Engbert and Reinhold Kliegl (Psychology), Shravan Vasishth (Linguistics).
- ◇ **Project title**: A4 EM-ERPs and anaphoric resolution. Funded by the DFG, 2011-2013 (three years). Co-PIs: Shravan Vasishth (Linguistics), Frank Rösler (Senior Professor, Psychology, Hamburg)
- ◇ **Project title**: Online sentence processing, aphasic impairments, computational modelling. Funded by the DFG, 2011-2012 (two years). PIs: Shravan Vasishth, Ria De Bleser, Frank Burchert.
- ◇ **Project title**: Prosody in parsing, phase 2. Funded by the DFG as part of the DFG Schwerpunktprogramm 1234 (2009-2012).
- ◇ **Project title**: Experimental and corpus investigations of information structure in Hindi. DFG proposal funded as part of the Potsdam-Humboldt Collaborative Research Center (Sonderforschungsbereich, SFB) on Information Structure (2007-2011).
- ◇ **Project title**: Computational models of human sentence processing: a model comparison approach. DFG proposal funded as a single project (2008-2010). Co-PI: Reinhold Kliegl, Psychology.
- ◇ **Project title**: Prosody in parsing. Funded by the DFG as part of the DFG Schwerpunkt-programm 1234 (2006-2009).

RESEARCH INTERESTS

Cognitive modeling, in particular computational psycholinguistics (sentence processing); computational modeling of high-level cognitive processes; mathematical, computational, experimental, and statistical methods in linguistics and psychology.

Current research collaborations

- Bayesian modeling of individual differences (Prof. Dr. Julia Haaf).
- Investigating agreement processes in L1 and L2. With Prof. Dr. Sol Lago, Frankfurt.
- Connecting models of eye movement control and sentence processing theories. With Ralf Engbert, Psychology, Potsdam.
- Predictive processing. With Frank Rösler, Senior Professor in Psychology, University of Hamburg.

Past collaborations

- Statistical modeling, Paul Bürkner (Stuttgart), Michael Betancourt (independent consultant).
- Interference in sentence processing, with Brian Dillon, UMass.
- Developing statistical methods. With Robin Ryder and Nicolas Chopin. CEREMADE (Centre de Recherche en Mathématiques de la Décision), Université Paris-Dauphine, Michael Betancourt (NYC).
- Research on reflexives in German, with Brian Dillon, University of Massachusetts, USA.
- Chinese relative clauses. With Charles Lin, Illinois.
- The role of working memory constraints in parsing. With Philip Hofmeister, Essex, UK.
- Anaphor resolution. With Frank Rösler, Senior Professor in Psychology, University of Hamburg.
- Constraints on human sentence processing: empirical and modeling aspects. With Richard Lewis, Psychology, Michigan, USA, and John Hale, Cornell University, USA

Member

- **Royal Statistical Society**

Research output

- **Publications**

Books

◇ **Invited talks/workshops**

1. Invited talk at the University of California, Irvine, USA, 2023.
2. Invited talk at the summer school in linguistics (Czech republic), September 2021.
3. Invited talk at Stanford University, Department of Linguistics. 20 April, 2021.
4. Invited talk at the University of Massachusetts, Department of Linguistics. 2021.
5. Invited talk at Chinese University of Hong Kong. 10 March, 2021.
6. Invited talk at the University of Tübingen, Germany. 22 February, 2021.
7. Invited lecture at Ruhr-Universität Bochum. May 2020 (cancelled due to pandemic).
8. Invited lecture at the University of Hamburg: The role of replication in Bayesian data analysis. December 2019.
9. Four-hour workshop and two-hour hands-on session at the Doing Good symposium at MPI Leipzig, November 2019.
10. Five-day course at the Elastometry Department at Charité Hospital, Mitte, Berlin, on Bayesian statistical methods. November 2019.
11. Two-day course at the Psychology department, Göttingen University, on using Bayesian methods for visual world data. June 2019.
12. Two-day course at the Elastometry Department at Charité Hospital, Mitte, Berlin, on Statistical methods. June 2019.
13. Invited talk on processing prenominal relative clauses at Linguistics, Frankfurt am Main. June 2019.
14. Invited talk, Is pre-registration a bad idea or a very bad idea? Talk given at Humboldt-University, Berlin, Germany, 24 January 2019.
15. Invited talk, Bayesian vs. frequentist data analysis: A comparison. Talk given at the block seminar for Charité's SFB 1340, Matrix in Vision, Berlin, Germany, 18 January 2019.
16. Invited talk on Bayesian mixed modeling, symposium at ESCoP 2017, University of Potsdam, Germany.
17. One-day workshop (Introduction to Bayesian Modeling using Stan) at the 13. Tagung der Fachgruppe Methoden und Evaluation der Deutschen Gesellschaft für Psychologie, Tübingen, Germany, 17 Sept 2017.
18. Three lectures on sentence comprehension at the Summer School of Linguistics, Litomyšl, Czech Republic, 20 to 26 August 2017.
19. Month long course on Bayesian statistics for psycholinguistics at Paris 7 (International Chair, Laboratoire d'excellence "Empirical Foundations of Linguistics: data, methods, models"), France, October 2014.

20. University of Tokyo, August 2014.
21. University of Tokyo, August 2014.
22. Rikkyo University, Tokyo, July 2014.
23. Kansai Psycholinguistics Circle, April 19, 2014.
24. Keynote speaker, Translation in Transition Conference, Copenhagen, January 2014.
25. Invited speaker, Geneva, December 2013.
26. One week course on experimental methods for linguistics, France, June 2013.
27. Workshop, Lectures on Language Technology and Cognition, March 2012, Uppsala, Sweden.
28. Three-day workshop on linear mixed effects models, Bielefeld Mixed Models Workshop, February 2012. See http://www.spectrum.uni-bielefeld.de/BiMM2012/.
29. Two-day workshop on eyetracking, University of Bielefeld. February 2012.
30. Mini-Workshop zur Methode des Eye-Tracking in Linguistik und Technischem Design. Forschungsverbundes für Sprachwissenschaft und Kognition an der Universität Stuttgart.
31. 17. November 2010, 48th StuTS Tagung, Potsdam.
32. 6. November 2010, Poitiers, France.
33. 6. October 2010, Kogwis 2010, Potsdam.
34. July 2010, Wilhelm-Schickard Institute for Computer Science, University of Tuebingen.
35. Berlin-Brandenburgische Akademie der Wissenschaften.
36. Linguistic Evidence, Tübingen, February 2010.
37. Bielefeld, June 2009.
38. Shravan Vasishth. Predictive and retrieval processes in online sentence comprehension. Neurospin, Paris.
39. Shravan Vasishth. A case against chance performance: Evidence from eye movements of agrammatic aphasics. Neurospin, Paris.
40. Shravan Vasishth. The integration advantage due to topic- and focus-marking: Evidence from Hindi. Neurospin, Paris.
41. Shravan Vasishth. Prediction and retrieval in dependency resolution: Models and data Feb 12, 2009. University of Saarland, Saarbruecken, Germany.
42. Shravan Vasishth. A case against chance performance: Evidence from eye movements of agrammatic aphasics. Feb 12, 2009. University of Saarland, Saarbruecken,
43. Shravan Vasishth & Rukshin Shaher. June 2008. The integration advantage due to topic- and focus-marking: Evidence from Hindi. Dialogue Matters workshop, London.
44. Shravan Vasishth. April 2008. Clefting and topicalization in Hindi. University of Bielefeld.

45. Shravan Vasishth (with Pavel Logačev). November 2007. Cue-based parsing and morphological ambiguity. At a workshop on incremental interpretation of case and prominence, held at Radboud University, Nijmegen.
46. Shravan Vasishth. September 2007. Locality and interference effects in sentence comprehension. At Michigan State University.
47. Shravan Vasishth. September 2007. Determinants of parsing complexity: A computational and empirical investigation. At the University of Rochester.
48. Shravan Vasishth. September 2007.Integration processes in online sentence comprehension: A cross-linguistic and cross-methodological investigation. At the International Conference on the processing of head-final languages. Rochester Institute of Technology, NY.
49. Shravan Vasishth. July 2006. Locality in human sentence comprehension. At the 13th International Conference on Head-driven phrase structure grammar (website).
50. Shravan Vasishth. October 2005. Sentence processing as skilled memory retrieval: A computational model. Talk presented at *The Fifth International Forum on Language, Brain, and Cognition*. Theme: Natural Language in Computer and Brain Sciences: Toward a Unified View. Tohoku University, Sendai, Japan. Conference co-organized by the German Embassy in Japan on the 'Germany in Japan Years 2005/2006.'
51. Shravan Vasishth. May 2005. Sentence processing as skilled memory retrieval: A computational model. Center for Cognitive Studies, University of Potsdam.
52. Shravan Vasishth. July 2003. Quantifying processing difficulty in human sentence parsing. Talk presented at Potsdam University, Germany.
53. Shravan Vasishth. June 2003. Processing center embeddings: Some new evidence from Hindi. Talk presented at the University of Konstanz, Germany.
54. Shravan Vasishth. January 2003. Argument-head distance as an index of sentence comprehension difficulty. Talk presented at the National Brain Research Centre, Gurgaon, India.
55. Shravan Vasishth. January 2003. How to design an experiment (for linguistics and psycholinguistics). Talk presented at Delhi University's Linguistics department.
56. Richard Lewis and Shravan Vasishth. March 2002. Talk presented at the Institute for Research in Cognitive Science, University of Pennsylvania.
57. Shravan Vasishth. June 2001. Encoding and retrieval processes in human working memory: An empirical investigation of Hindi center-embedding constructions. Presented at the Computational Linguistics department, University of Saarland, Germany.

Service

◇ **Journals editorial service**

1. Academic editor: PeerJ.
2. Advisory board: Journal of Semantics (from 2020).

3. Editorial board: Journal of Memory and Language (from 2020).
4. Editorial board: Glossa Psycholinguistics (from 2021).

◇ **Service to community**

1. Conceived and organized the annual summer school in statistical methods for linguistics and psychology (SMLP), held at Potsdam since 2017. See: https://vasishth.github.io/smlp/.
2. Head of a tenure commission at Potsdam.
3. Tenure case, University of Macao.
4. Organizing AMLaP 2020 at Potsdam.
5. European Commission Evaluator for Marie Sklodowska Curie Actions Individual Fellowships, 2019.
6. External reviewer, University of Oxford PhD dissertation, 2019.
7. DFG project proposal reviewer, 2019.
8. Member, European Science Foundation College of Expert Reviewers (2017-2020).
9. DGfS Program committee, Information theoretic modeling of linguistic variation in context approaches, Saarbrücken, 2017.
10. Program Committee Chair ESSLLI 2017, Toulouse, France, July 17-28, 2017.
11. Area chair for computational psycholinguistics, COLING 2016, Osaka, Japan.
12. Tenure/promotion case: external reviewer for three US universities.
13. Area expert, Student Session of ESSLLI 2015.
14. Speaker, Language Cluster, Cognitive Science, University of Potsdam.
15. External examiner PhD dissertation, University of Paris 7.
16. Programme Committee of the 25th ESSLLI to be held in Duesseldorf, Germany, 2013.
17. Speaker of Strukturbereich Kognitionswissenschaften, University of Potsdam (2011-2012).
18. Member of Beirat (Member of Advisory Committee), Interdisciplinary Masters degree program in the Excellence Area in Cognitive Science (from October 2010).
19. Head of the department, Department of linguistics (from October 2010 to September 2012).
20. Member of editorial board: Journal of South Asian Linguistics, CSLI.
21. Member of Erasmus Mundus European Masters in Clinical Linguistics program, Potsdam-Groningen-Finland.
22. Member of the International M.Sc. / Ph.D. Programme for Experimental and Clinical Linguistics, Potsdam.
23. Stellvertreter for the Speaker position for the Department of Linguistics (Winter 2010-October 2010).

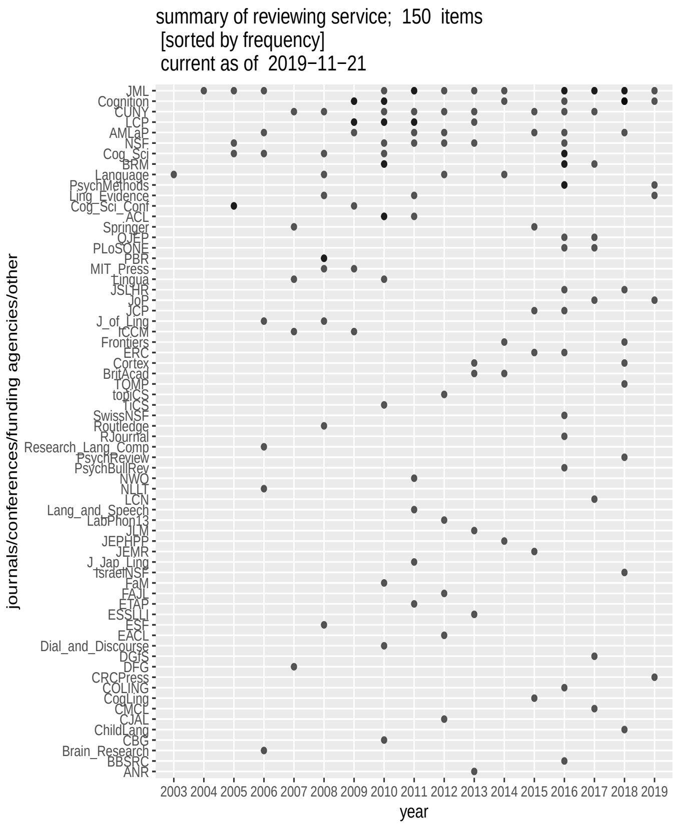

Figure 1: ACL: Association of Computational Linguistics; AMLaP: Architectures and Mechanisms for Language Processing; BRM: Behavior Research Methods; BBSRC: Biotechnology and Biological Sciences Research Council; CBG: Copenhagen Business School; CMCL: Computational Modeling and Computational Linguistics, COLING: Computational Linguistics; CUNY: CUNY Sentence Processing Conference; Cog_Sci: Cognitive Science; Cog_Sci_Conf: Cognitive Science Conference; DFG: Deutsche Forschungsgemeinschaft; Dial_and_Discourse: Dialogue and Discourse; EACL: European ACL; ERC: European Research Council; ETAP: Experimental and Theoretical Approaches in Prosody; ESF: European Science Foundation; ICCM: International Conference on Cognitive Modeling; JML: Journal of Memory and Linguistics; J_Jap_Ling: Journal of Japanese Linguistics; J_of_Ling: Journal of Linguistics; LCP: Language and Cognitive Processes; JSLHR: Journal of Speech, Language, and Hearing Research; JoP: Journal of Phonetics; Lang_and_Speech: Language and Speech; Ling_Evidence: Linguistic Evidence; NLLT: Natural Language and Linguistic Theory; NSF: National Science Foundation (USA); NWO: Netherlands Organization for Scientific Research; PBR: Psychological Bulletin and Review; PsychMethods: Psychological Methods; SwissNSF: Swiss National Science Foundation; Research_Lang_Comp: Research on Language and Competition; QJEP: Quarterly Journal of Expt. Psychology; TiCS: Topics in Cognitive Science; TQMP: The Quantitative Methods in Psychology.

24. Head of the commission for a W3 position in Theoretical Computational Linguistics, Potsdam.

◇ **Reviewing: journals, conferences, funding bodies**

LAB ALUMNI

- ◇ **Daniela Mertzen**. Research data management specialist, tenured position at the Freie Univeristät, Berlin.
- ◇ **Paula Lissón**. Assistant Professor / Profesora Ayudante Doctora, Department of Specific Didactics - English (TEFL), University of Las Palmas de Gran Canaria, Spain, Research institute: IATEXT
- ◇ **Himanshu Yadav**. Assistant professor (tenure-track) at the Indian Institute of Technology, Kanpur, India.
- ◇ **Kate Stone**. Lecturer at the University of Hull, UK.
- ◇ **Sol Lago**. Professor at Frankfurt am Main, Germany.
- ◇ **Samar Husain**. Associate professor at the Indian Institute of Technology, New Delhi, India.
- ◇ **Daniel Schad**. Professor at Health and Medical University, Potsdam, Germany.
- ◇ **Bruno Nicenboim**. Assistant professor (tenured) at Tilburg University, the Netherlands.
- ◇ **Lena Jäger**. Associate professor (tenured) at the University of Zurich, Switzerland.
- ◇ **Joao Verissimo**. Assistant professor (tenure-track) at the University of Lisbon, Portugal.
- ◇ **Titus von der Malsburg**. Juniorprofessor (tenure-track) at the University of Stuttgart, Germany.

PHD SUPERVISION (COMPLETED)

- ◇ **Umesh Patil**, February 2012. Current employer: t2k, GmbH, Dresden.
- ◇ **Titus von der Malsburg**, April, 2012. Current employer: University of Stuttgart. Previous employers: University of Oxford, UK; University of California, San Diego; University of Potsdam.
- ◇ **Sabrina Gerth**, PhD program. Topic: Minimalist parsing. Current employer: University of Potsdam.
- ◇ **Pavel Logačev**: PhD program. Topic: evaluating models of sentence comprehension. **Winner of best poster award at AMLaP 2013**. Current employer: Assistant professor, Bogadizi University, Istanbul, Turkey.
- ◇ **Paul Metzner**: PhD program. Topic: dependency resolution, locality and interference in German. Current Employer: Wooga.
- ◇ **Lena Jäger**: PhD program. Topic: Retrieval and predicton processes in sentence comprehension. **Winner of best dissertation award, Universität Potsdam, 2015; award of 1,250 Euros**. Current employer: University of Zurich, Switzerland.
- ◇ **Felix Engelmann**: PhD program. Topic: parsing and eye movements. Current employer: co-founder/owner, startupdetector.
- ◇ **Bruno Nicenboim**: PhD program. Topic: expectations vs locality effects in Spanish and German; models of retrieval processes. Current employer: Tilburg University.
- ◇ **Dario Paape**: PhD program. Topic: ellipsis. Current employer: University of Potsdam. Part-time substitute Professor: Osnabrück, Germany.

- **Kate Stone**: Predictive parsing. Current employer: University of Hull, UK.
- **Anna Laurinavichyute**: Good-enough processing. Current employer: University of Potsdam.
- **Daniela Mertzen**: Interference effects in German and English.
- **Dorothea Pregla**: Sentence comprehension in aphasia.
- **Paula Lissón**: Computational models of sentence processing in aphasia.
- **Himanshu Yadav**: Encoding and retrieval models of agreement attraction effects.
- **Serine Avetisyan**: Agreement processes in sentence comprehension.

External PhD supervision

- **Leonardo Concetti**: second advisor, University of Siena, Italy.
- **Marten van Schijndel**: external committee member, Ohio State, USA (2015-17).
- **Brian Bartek**: PhD, Michigan (2011).
- **Mattias Nilsson**, (second supervisor), Uppsala, Sweden (2012).

BA, MA Student Supervision (Completed)

- **Katja Suckow**, Master's degree (completed November 2005). Topic: syntactic complexity. Current employment: Postdoctoral researcher, University of Goettingen, Germany.
- **Sven Brüssow**, Master's degree (completed July 2006). Topic: Modeling polarity processing in German. Current employment: Data Scientist, Landeshauptstadt Stuttgart.
- **Kuei-Lan Kuo**, Master's degree (completed September 2006). Topic: Processing relative clauses in Chinese. Current employment: Specialist Project Controlling Eberspächer Exhaust Technology GmbH & Co. KG.
- **Rachel Whalen**: EMCL Master's program (completed February 2008). Topic: similarity-based interference. Current employment: PhD student, Montreal.
- **Ramesh Mishra**: EMCL Master's program (completed February 2008). Topic: word order, givenness and information structure in Hindi.
- **Kai Sippel**, Master's degree (completed January 2009). Topic: probabilistic parsing and sentence processing.
- **Pavel Logačev**, Master's degree (completed October 2008). Topic: syntactic features in sentence processing. Current employment: Freelance Data Scientist
- **Lars Meyer**, EMCL program (completed January 2009). Topic: locality. Current employment: Postdoctoral researcher, MPI Leipzig
- **Felix Engelmann**, Master's degree (completed January 2009). Topic: connectionist modeling. Current employment: Researcher at the Department of Psychology, University of Manchester, UK.
- **Qiang Li, Niloofar Keshtiari**: EMCL program students.

- ◇ **Anna Melzer**: BA student.
- ◇ **Anja Goldschmidt**: BA program linguistics
- ◇ **Paul Metzner**: MA program HU Berlin
- ◇ **Sophia Jähnigen**: BA program linguistics
- ◇ **Carolina Gattei**: MA program, EMCL.
- ◇ **Cintia Widmann**: MA program, EMCL.
- ◇ **Juliane Böhme**: MA program linguistics
- ◇ **Kate McCurdy**: MA, EMCL
- ◇ **Dario Paape**: Linguistics
- ◇ **Ulla Behr**: Linguistics
- ◇ **Jens Roeser**: Linguistics
- ◇ **Wei Zhan**: Linguistics
- ◇ **Serine Avetisyan**: MA, EMCL
- ◇ **Daniela Mertzen**, Master's degree (completed August 2016). Topic: ungrammatical center embeddings in German. Current employment: University of Potsdam.
- ◇ **Paul Maetzig**, Master's degree. Topic: computational modeling of sentence comprehension in aphasia.
- ◇ **Esther Karp**. Master's degree. Topic: illusions of grammaticality in center embeddings.
- ◇ **Marie Tzschaschel**. Master's degree. Topic: modeling illusions of grammaticality in center embeddings.
- ◇ **Elizabeth Pankratz**: Master's degree. Topic: morphological productivity.
- ◇ **Elise Oltrogge**: Master's degree. Topic: .
- ◇ **Chiara Meisch**: Master's degree. Topic: Do extra-sentential distractors lead to retrieval interference? A simulated ERP study.
- ◇ **Fariba Molanzadeh**. Master's degree. Topic: Local coherence.
- ◇ **Lea Sierro**. Master's degree. Topic: Relative clauses in French.
- ◇ **Johan Henner**. Bachelor's thesis. Topic: Lossy context surprisal.
- ◇ **Alicia Dammasch**. Bachelor's thesis. Topic: The effect of music on language processing.
- ◇ **Xinyuan Xia**. Master's thesis. Topic: Chinese relative clauses.

Current Active PhD Students

- ◇ **Michael Vrazitulis**: Creating benchmark data for evaluating computational models of sentence processing.
- ◇ **Yana Arkhipova**: Sentence processing (ERP studies). First advisor: Milena Rabovsky.

TEACHING

◇ **Teaching capability**:
In addition to the courses listed below, I can teach courses on mathematics and statistical theory (both frequentist and Bayesian), formal/mathematical logic, formal language theory, regular computer science courses (e.g., Introduction to Computer Science; Introduction to Artificial Intelligence; Algorithms and Complexity), Nontransformational grammar formalisms (categorial grammar and head-driven phrase structure grammar), Syntax of Hindi and Japanese. Morphology.

◇ **Compact courses 2001-present**:

1. One-week intensive introduction to Bayesian data analysis, University of Göttingen, February 2026.
2. One-week intensive introduction to Bayesian/frequentist statistics, University of Gent, Belgium, 2022, 2023, 2024, 2025.
3. Introduction to Bayesian statistics, a one-week course taught annually at the SMLP (https://vasishth.github.io/smlp/), since 2017 (not taught by me every year).
4. Short statistics courses taught at the Charité hospital in Berlin, Bioqic research training group: https://bioqic.de/ (several years).
5. One-week course (with Bruno Nicenboim), at Physalia, Berlin. March 2020.
6. One-week course (with Bruno Nicenboim), at LOT Winter School, Tilburg, Netherlands, on Bayesian methods. January 2020.
7. One-week course on Bayesian methods at Physalia courses, Berlin. March 2019.
8. A one-week course on computational modeling in sentence comprehension using the ACT-R parsing architecture (ESSLLI 2016, Bolzano, Italy).
9. A two-month course on predictive parsing processes in sentence comprehension, University of Tokyo, October-December 2015.
10. A two-week course on statistical data analysis, European Summer School on Logic, Language, and Information (ESSLLI), Barcelona, August 2015. Teaching evaluation: http://bit.ly/ESSLLI15Eval.
11. A one-month course in Paris 7 (Diderot) on Bayesian Statistics, October 2014.
12. The foundations of statistics: A simulation-based approach. A one-week course taught at the European Summer School on Logic, Language, and Information (ESSLLI), Bordeaux, July 2009.
13. Foundations of human sentence processing. A five-day (90 minutes×5) block seminar conducted at the Seminar für Sprachwissenschaft, Universität Tübingen, 24-28 April 2006.
14. A 90-minute tutorial on linear (and non-linear) mixed-effects modeling. Alfa-informatica, Fac. der Letteren, Rijksuniversiteit Groningen, 29th March 2006.
15. An introduction to Computational Psycholinguistics: a two-week course (ten lectures) taught at Computational Linguistics Summer School in Bochum,

Germany, 19-30 September 2005
Student Evaluation Score (19 respondents): 4.27 (Rating scale 1-5, with 5 the highest possible score).

16. Data Analysis using R, a system for statistical computing and graphics: A one-week course taught at European Summer School on Logic, Language, and Information (ESSLLI), Edinburgh, Scotland, August 2005.
17. Competence/performance modeling of free word order languages: A one week course, co-taught with Geert-Jan M. Kruijff at ESSLLI, Helsinki, Finland, 2001.

◇ **Semester-long courses 2003-2024**

2023-24
· Introduction to Statistical Data Analysis, Stats 1 (Winter)
· Bayesian Data Analysis, Bayes 1 (Winter)
· Case Studies in Psycholinguistics (Winter)
· Theories of sentence processing (Summer)
· Bayesian Data Analysis, Bayes 2 (Summer)
· Psycholinguistics colloquium (Summer)

2022-23
· Introduction to Statistical Data Analysis, Stats 1 (Winter)
· Bayesian Data Analysis, Bayes 1 (Winter)
· Case Studies in Psycholinguistics (Winter)
· Theories of sentence processing (Summer)
· Bayesian Data Analysis, Bayes 2 (Summer)
· Psycholinguistics colloquium (Summer)

2021-22
· Introduction to Statistical Data Analysis, Stats 1 (Winter)
· Bayesian Data Analysis, Bayes 1 (Winter)
· Foundations of Mathematics (Winter)

2020-21
· Introduction to Statistical Data Analysis, Stats 1 (Winter)
· Bayesian Data Analysis, Bayes 1 (Winter)
· Case Studies in Psycholinguistics (Winter)
· Advanced data analysis, Stats 2 (Summer)
· Advanced Bayesian Data Analysis, Bayes 2 (Summer)
· Theories of sentence processing (Summer)

2019-20
· Introduction to Statistical Data Analysis, Stats 1 (Winter)
· Bayesian Data Analysis, Bayes 1 (Winter)
· Advanced data analysis, Stats 2 (Summer)
· Advanced Bayesian Data Analysis, Bayes 2 (Summer)
· Theories of sentence processing (Summer)

2018-19
· Introduction to Statistical Data Analysis (Winter)
· Bayesian Data Analysis (Winter)
· Advanced data analysis (Summer)
· Current issues in sentence comprehension (undergrad, Summer)
· Theories of sentence processing (graduate, Summer)

2016-18 Sabbatical from teaching (Opus Magnum award)

2015
- Introduction to data analysis using R (All MSc Linguistics programs, Summer)
- Linear modeling (MSc Cognitive Systems, Summer)
- Current issues in sentence comprehension (undergrad, Summer)

2013-2014
- Foundations of Mathematics (Winter)
- Computational Models of Parsing (Winter)
- Advanced Data Analysis: Bayesian Methods (Winter)

2013-2014
- Introduction to data analysis using R (Summer)
- Advanced issues in sentence comprehension (Summer)
- Case studies in psycholinguistics (Summer)
- Advanced data analysis using R (Bayesian data analysis) (Winter)
- Theories of Sentence Processing (Winter)
- Working Memory Constraints and Dependency Resolution (Winter)
- Experimental Semantics (Winter; with Malte Zimmermann)

2012-2013
- Scientific Writing (Summer)
- Reanalysis (Summer)
- Introduction to R (Summer)
- Psycholinguistics colloquium (Winter)
- Theories of Sentence Processing (Winter)

2011-2012
- Applications of advanced multivariate statistics with R (Summer, with Reinhold Kliegl, Psychology)
- Introduction to R (Summer)
- Reanalysis (Summer)

2010-2011
- Computational models of sentence comprehension (Winter). Graduate level course.
- Methods and Statistics (Winter). Graduate level course (co-taught with Reinhold Kliegl, Psychology).

2009-2010
- Statistical methods (Summer 2010). Graduate level course.
- Language, Memory, and Attention (Summer 2010). Graduate level course co-taught with Pavel Logačev.
- Current issues in sentence comprehension (EMCL, IECL, MA combined)
- Psycholinguistics Colloquium.
- Advanced psycholinguistic data analysis with R (Winter; with Reinhold Kliegl)
- Models of processing and acquisition of alternations (Winter; with Ruben van de Vijver)
- A practical course on eyetracking (Winter)
- Clefting and focus: Syntactic, semantic, and psycholinguistic aspects (Winter; with Malte Zimmermann)

2009
- Practical data analysis using R (Summer)

- · EMCL program: Eye movements and sentence comprehension (Summer)
- · Sentence processing and the visual world (Summer)
- · Psycholinguistics Colloquium (Summer)
- · Psycholinguistics Colloquium (Winter)
- · Developing an HPSG grammar of Hindi (Winter)
- · Eyetracking research on sentence comprehension (Winter)
- · Current issues in sentence processing (Winter)

2008
- · Computational modeling (Summer)
- · Advanced issues in psycholinguistic research (Summer)
- · Empirical Methods in Linguistics (Summer).
- · Introduction to psycholinguistics (Summer).

2007
- · Sentence comprehension; cross-listed in Psychology and taught jointly with Reinhold Kliegl, Psychology (Winter).
- · Introduction to morphology (Winter).
- · Eyetracking research in sentence processing (Winter).

2006
- · The Syntax of Hindi-Urdu (Summer).
- · Computational Psycholinguistics: An introduction (Summer).
- · Introduction to morphology (Winter).
- · Hypothesis testing in linguistics research (Winter).

2005
- · Psychological reality and syntactic theories (Summer).
- · An introduction to Head-driven phrase structure grammar (Summer).
- · Data Analysis using R, a system for statistical computing and graphics (Winter).
- · Empirical and theoretical issues in sentence processing (Winter).

2004
- · Data Analysis using R, a system for statistical computing and graphics (Summer).
